## ACTIVE SHOOTER PREPAREDNESS What Everyone Needs to Know

In many cases, there is no pattern or method to the selection of victims by an active shooter, and these situations are, by their very nature, unpredictable and evolve quickly. Because active shooter situations are often over within 10-15 minutes, before law enforcement coordinate on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation. Attend this meeting to hear importance information regarding how to response during an active shooting to save your life and others around you.

These meetings will begin at 10:30 a.m. with lunch to follow. The cost is \$30.00 per person. Please submit the registration form as soon as possible. **APGA reserves the right to cancel a meeting if adequate registration is not received.**
