

**Alabama Propane Gas Association**  
**Technical Training**  
**by Dealers LP Equipment**

We are offering the following four topics in a one day training program for service personnel.

- 2 lb Propane Systems - will explain why 2 lb systems are so important and the roles that they play. Regulators, piping, systems, and installation scenarios are included.
- Cathodic Protection - how to install, what to look for, how to test UG systems, and how to DOCUMENT!
- Liquid Transfer - liquid transfer - pump outs - tank evaluations...whatever you call them, they all mean the same thing. Arguably, the most dangerous function in the propane industry. Learn the safe and proper way to do it and the major hazards involved.
- Container Sizing, Preparation, and Installation - will focus on vaporization calculations, purging, methanol applications, and container spacing/installation guidelines. Many scenarios will be discussed.

**APGA reserves the right to cancel the course if adequate registration is not received.**

Course cost is \$20 per attendee which includes lunch.

**Agenda**

- 9:30 a.m.** Course Begins
- 11:45 a.m.** Lunch (*included*)
